

Radu Sirbu & Arsenium - Lay Down

You've gotta feel

You've gotta feel my love

Lay down

My head goes round and round

And we can feel the ground

We are high above the sound

Lay down

Lay down

And look beyond the sky

Don't Be afraid to try

When the world turned upside down

Lay down

You've gotta feel

You've gotta feel my love.④

For you

Lay down

Feel freedom in your blood

The sound of beating heart

When love was lost and found

Lay down

Lay down

And stay forever young

Stay endless like a song

One day you'll find the sound

Lay down ,ehh

You've gotta feel

You've gotta feel my love.④

Lay down

My head goes round and round

And we can feel the ground

We are high above the sound

Lay down

You've gotta feel

You've gotta feel my love.④

For you...
