

## **Arsenium & Mianna - Fuck 'em All**

Lay down

It might be our last

Talk before we must

Leave it all behind

This love's gonna turn into the dust

So lay down on my hands

Tomorrow we'll be friends

I promise to stay true

To what i felt for you

All these days will fade to grey

If you take our nights away

Chorus:

If i let you go

Take my heart cause i don't need it anymore

People say we're crazy , yeah, but fuck them all !

'Cause they don't know shit about our love

About our love

If i let you go

Take my heart cause i don't need it anymore

People say we're crazy , yeah, but fuck them all!

'Cause they don't know shit about our love

About our love

It's 5 and i still need to drive

To the place you will not find

So hard to let it go, it feels like i commit a crime,

Nothing more to say, your song will guide my way

I promise to stay true to what i loved in you

All these days will fade to grey

If you take our nights away

Chorus:

If you let me go

I 'll take your heart cause you don't need it anymore

People say we're crazy , yeah, but fuck them all

'Cause they don't know shit about our love

About our love

If i let you go

Take my heart cause i don't need it anymore

People say we're crazy , yeah, but fuck them all

'Cause they don't know shit about our love

About our love

If i let you go

Anymore

Fuck them all

They don't know shit about our love, bout our love
